

Vertechs Integrated Connector – Packer Penetrator System

Vertechs Integrated Connector (VIC) - Packer Penetrator System is an ESP cable connector system consisting of a slim and compact mandrel design. Simplified design, with only one single connection and no pigtails to splice, significantly reduces installation time and cost, the optimized structure facilitates transportation and can fit into applications with smaller operating space. The VIC has various adapters and different installation options to be compatible with all types of ESP packers. With adjustable length for accurate matching, it reduces installation risks and ensures successful connections.

Features

- Slim and compact mandrel design reduces installation time
- No pigtails, facilitates transportation and saves cost
- Optimized structure, fits into applications with smaller operating space
- Pre-assembled, fewer connections at the field, minimizes the risk of human error
- Adjustable length for accurate matching ensures successful connections
- Multiple adapters and installation ways to be compatible with all types of ESP packers
- Compatible with both round and flat cable of any size

Specifications

VIC-Packer Penetrator System Specifications		
Item	Unit	Value
Voltage rating	V	5,000
Current rating	A	125
Temperature rating	°F/°C	302 / 150
Pressure rating	psi	5,000
