

# WIZARD Metal Seal Dissolvable Frac Plug

WIZARD Metal Seal dissolvable frac plug is a revolutionary design with metal seal, bringing a better dissolution performance. WIZARD MS provides larger ID, shorter length, better pump-down ability, and a shorter total dissolution time. Without rubber component, the total dissolution time of WIZARD MS is shortened by 40%, and the pressure rating increases to 15,000psi with robust metal seal component introduced.

## Features

- Better dissolution and pressure holding performance with metal seal.
- Better pump-down ability with compact design
- Big-ID up to 2.36", 50% larger
- Ultra-short length, 60% shorter
- Suitable for low – high temperature applications 86°F ~ 320°F
- Pressure rating up to 15,000 psi
- Running with standard Baker wireline or hydraulic setting tools

## Specifications

Casing Size	Weight (lb/ft)	Casing Grade
4.5"	11.6-15.1	N80 P110 Q125 140V
5"	23.2-24.1	
5.5"	17, 20-23, 26-26.8	
6"	24.5
